

Israeli Ukrainian Education Forum: “ Collaboration inspires innovation”.

Education is a fundamental determinant of Israeli’s human capital stock and a primary factor influencing the country’s long term economic growth.

As education is critical in providing opportunities for individuals to realize their full potential, it is vitally important to understand how to advance the quality of educational attainment and bridge the gap by getting international higher education in other countries.

Our Goals:

- Build strong partnerships of exchange programs
- Strength international academic and research initiatives
- Share information, knowledge, experience
- Promote Higher and Further Education partnerships between Israel and Ukraine as part of the capacity-building needs.

Potential participants:

- Students who are looking for an opportunity to get first/second degree abroad
- Representatives of Israeli Universities and Colleges who responsible for international programs
- Educational NGOs that promote accelerating and research programs in partnership with Academia
- Edtech startups with innovative solutions for this sector

Partners:

- Ministry of Education and Science in Ukraine
- Embassy of Ukraine in the State of Israel
- Ministry of Education and Science in Israel
- Mashav - Israel’s Agency for International Development Cooperation
- Milhauz - Institute of Education, Art and Identity

Supported by Ukrainian Jewish Encounter

Initiated and organized by

- Israeli Friends of Ukraine
- Israeli Ukrainian Alliance
- The Ukrainian State Center for International Education of Ministry of Education and Science.
